Class SB2 | Issue 13 | August 2008 | Product Highlight: Nerf Steps | www.smittybilt.com

NEW PRODUCT

Nerf Steps

WHEN YOU'RE LOOKING FOR THE LATEST SIDE STEP STYLE LOOK FOR THE NERF STEP.

It features a 3" main tube with an innovative four-step drop down design with a cleated step plate. Each bar is custom made for each application and provides one of the sturdiest attachments in the industry. The new stainless steel bars are constructed completely of 304 Marine Grade Stainless and come with a limited Lifetime Warranty.

The drop steps are welded on and then ground down and smoothed out to provide a truly finished look.
