

## Synthetic Winch Rope DSK-75

The all new Smittybilt synthetic winch rope is manufactured from Dyneema SK-75 which is lighter and stronger than the traditional steel cables plus it won't kink, curl or splinter. Each of our ropes is specially treated to be UV stable as well as heat treated. All of our ropes include a 10' protective sleeve; stainless steel thimble and safety hook with connector link which means it comes complete with nothing else to buy.

**45%  
STRONGER**
