The Smittybilt TR-8 is a high powered LED flashlight capable of producing an amazing 360 lumens thanks to the 3 premium CREE LED bulbs housed in the Tactical Strike Crown Head™. The light is controlled by a soft-touch 3-stage brightness control with an on/off switch giving you precision control. The TR-8 also feature a specially designed Tactical Grip Handle™, a finned collar for dissipation of heat, O-Ring internal seals for superior water resistance, long lasting Lithium Ion Batteries and a durable Mil Spec Black Anodized finish.

Don't get caught in the dark....
Let the Smittybilt TR-8 light your path.
