## NEWS

Class SB5 | Issue 6 | November 2007 | Product Highlight: SRC Classic Bumpers | www.smittybilt.com

### NEW PRODUCT

### CLASSIC FRONT / REAR BUMPERS

The Smittybilt SRC Classic Bumper line upholds the standard of performance that Smittybilt has long been known for. Each of the bumpers are manufactured out of 3/16" cold rolled steel and completely welded and ground down smooth for that finished look. The classic front and rear bumpers are available with or without the D Rings and all of the bumpers are a direct bolt on requiring no drilling or modification to your Jeep. The rear bumper comes with a standard 2" receiver and is available with or without a swing away tire carrier which can hold up to a 35" tire. When you demand the very best in bumper technology look to Smittybilt to provide the highest quality products available for your Jeep.

Classic Bumper shown without D Rings

Textured Black (AVAILABLE FOR JEEP ONLY)

Swings away allowing the use of your tailgate.

Heavy-duty latch mechanism keeps your tire secure.

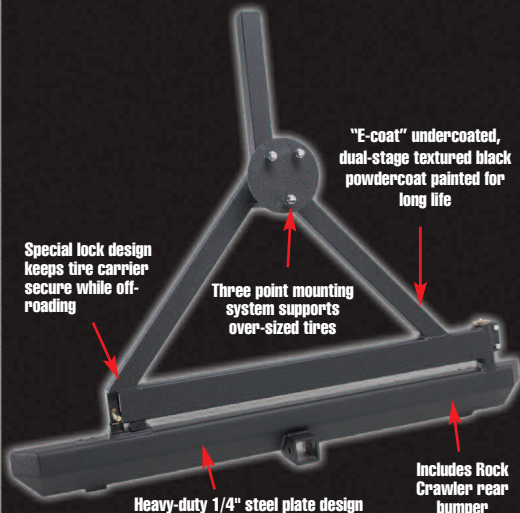

Custom grease fitting keeps hinge clean and smooth after years of use.
