NEW XJ STINGER

ADDED TO THE FULL LINE OF XJ ACCESSORIES

- Reduces forward tipping during a roll over
- Bolt-on design for 76810 Bumper
- Heavy duty 2" x .120 wall construction
- Features dimple die design on center
- Reinforced gussets for stronger tubes
- Smittybilt Advantage Warranty

Smittybilt is proud to announce a new addition to their line of XRC armor for the 84-01 Jeep Cherokee XJ. Their new XRC Stinger easily bolts on to Smittybilt's Cherokee winch bumper, providing increased grille and radiator protection and an aggressive appearance. Constructed from heavy duty 2-inch diameter, 0.120-wall thick tubing and reinforced with multiple gussets, the XRC Stinger is strong enough to withstand whatever you can dish out. The dimple-died center design and two-stage textured matte black finish look fast even when they are standing still, and will keep looking great for years to come. Like all XRC armor, this Stinger is backed by Smittybilt's Advantage Warranty for life.
