

**ADJUSTABLE
VERTICAL OR
SLANT BACK**

2018+ JEEP® JL HD PIVOT TIRE CARRIER

The Smittybilt HD Pivot Tire Carrier not only fits a 40" spare tire, but the innovative design adds strength to the JL factory tailgate and prevents flex, rattling, sag, and potential damage to your vehicle. Its fully customizable tire mount can be fine-tuned for height or backspace, and the adjustable tilt allows you to get extra ground clearance when working in tandem with an open or slanted top.

STRONG - Allows a Jeep JL to carry up to a 40", 135 lb spare tire without tailgate sag or buckling

CUSTOMIZABLE - Adjustable positions, improved departure angle and ability for use with an open back or slant-back top

EASY TO USE - Maintains easy single action of opening and closing of the tailgate without rattles or vibrations

**CARRY UP TO
A 40" 135 LB
SPARE TIRE**

**RIGID
CONSTRUCTION
PREVENTS
TAILGATE SAG
AND BUCKLING**

- A** Strong monoblock cast aluminum
- B** Single, reinforced hinge plate replaces factory hinges on tub and tailgate
- C** Adjustable tilt tire mount: Adjusts up/down, in/out, vertical/slanted
- D** Third brake light and back up camera provisions included
- E** Mounting holes for optional trail jack mount (Smittybilt Jack Mount #7744), CB antennas and tie downs
- F** Robust aluminum exoskeleton runs to center of tailgate
- G** Works with factory or OE bumpers; fits 40" spare tire with factory bumper
- H** Internal gusset/brace adds structural rigidity and supports aluminum JL tub
- I** 18-month research and design process with extensive testing
- J** Easy to install: No drilling required
- K** Proudly designed and engineered from the ground up at Smittybilt HQ in the USA
