

2020+ JEEP® JT GLADIATOR REAR BUMPER BRACKET KIT

If you love the styling of your JL's rear bumper and want to bring that same design over to your JT, now you can with the Smittybilt JT Bumper Adapter Kit, 78701K. This adapter is a great addition to Smittybilt's catalog of customization options to make your JT stand out. With the ability to use a JL rear bumper on a JT, the JT's options for customization and protection are vastly increased. With the simple bolt-on/ no-drill installation, customizing your JT couldn't be easier.

- Exclusive design for the 2020 Jeep Gladiator (JT)
- Allows Wrangler (JL) rear bumpers to be used
- Increases the amount of rear bumper options
- Easy to install: No drilling required
- Comes with license plate relocation bracket
