7HP AMPHIBIOUS TECHNOLOGY

ALL-NEW X20 GEN3 WATERPROOF WINCH

The Smittybilt X20 winches have been enhanced in almost every area for increased performance and trouble free operation. Every X20 GEN3 winch features a series wound 7HP motor that is completely sealed, as well as all-new forged gears. The X20 line features a completely waterproof 500 AMP control box that can be mounted in 2 different locations.

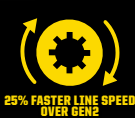

All-new wireless controller with USB connectivity that can be wired to the winch or unplugged for trouble-free wireless operation. The X20 also features optimized gear ratios that deliver lightning-fast line speeds. The X20 series comes standard with a synthetic winch rope for maximum performance.

PART: 98812

- A BETTER PERFORMANCE** - completely redesigned 7HP motor to new standard in recovery power delivering faster line speed
