

SMITTYBILT **ATLAS** REAR BUMPER & TIRE GATE

The Smittybilt XRC Atlas rear bumper have gone through extensive design and testing to meet stringent international pedestrian safety standards. As a result, the bumpers is stylishly chiseled as well as being extremely strong and functional. The rear bumper utilizes a new cam-style pin adjustment for ensuring perfect gate stowing every time. Re-opening the gate is simple too, only requiring minimal effort, however you can rest easy as the double latch will eliminate accidental opening. The bumper allows impressive ground clearance and can accommodate up to 37" tires. Enjoy the MOLLE Pals compatibility to allow multiple pouch mounting configurations. The bumper includes a Class III rated hitch, mounting locations for your jerry can and lift jack (Jerry Can and Hi-lift are not included) and a 3rd brake light mounting bracket.
