

SMITTYBILT ORION FRONT BUMPER

Looking to upgrade your vehicles factory appearance with a modern, sleek look? The Orion Bumper offers heavy-duty, front-end protection without the extra bulk. This form-fitting bumper will complement the look of your Chevy® and is designed to provide your truck with added utility. Two reinforced D-ring mounts alongside the optional winch mount tray fits most standard size winches up to 12,000lbs. This system allows you to mount up to two 6" lights behind each side panel and one 20" light bar in the center of the bumper for increased visibility in low light situations. Constructed from quality cold-roll steel and finished with a black powder coat
