

SMITTYBILT DEFENDER PLATFORM RACK

AVAILABLE FOR OUTBACK, CROSSTREK & FORESTER

For overlanders and weekend warriors alike The New Defender Platform Rack low-profile extruded aluminum rack is the perfect solution to carry the gear you need on your next expedition. When the journey is just as important as the destination, Defender Platform Rack delivers a strong platform surface for customers looking to mount heavy-duty or large equipment and accessories such as spare tires and parts, additional lights, tools or storage boxes.

FEATURES & BENEFITS

- Low profile extruded aluminum, low weight without sacrificing strength
- Black powder coated and anodized aluminum for increased corrosion resistance
- Vehicle specific mounting, fitments are designed to accent each vehicle's appearance
- Compatible with industry standard accessories and most popular brands
- Compatible with light bars for quick and easy mounting
- Bolt-on and no-drill application allows for trouble-free mounting without damaging your vehicle
- Racks arrive partially assembled for less errors and frustration
- Light brackets included, mounts up to four pod lights and one light bar
