

NEW PRODUCT RELEASE  
24+ TOYOTA TACOMA

# REAR BUMPER

\*Swing arms sold separately

Outfit your 2024+ Toyota Tacoma with a rear bumper built for real trail use. Frame-tied recovery points deliver dependable strength, while high-clearance geometry improves departure angles when terrain gets steep.

Designed to retain factory safety systems and work seamlessly with the OEM tow package, it balances rugged capability with everyday usability. Finished in a durable two-stage textured powder coat and backed by Smittybilt's structural warranty, it is built to perform for the long haul.

## MISSION-CRITICAL STRENGTHS

- Frame-mounted recovery points for confident off-road pulls
- High-clearance design improves departure angles
- Retains factory safety and blind-spot monitoring
- Compatible with OEM tow package
- Two-stage textured powder coat finish
- Limited Lifetime Structural / 5-Year Finish Warranty

## ADVENTURE-READY EXTRAS

- Dual 6-inch light bar mounts (lights sold separately)
- Upgradeable modular swing-out capability for one or both sides
- Integrated bottle opener
- Modern styling matched to 2024+ Tacoma
